

## **Downtown Construction Activities**

### ***Proposed work activities for the week of May 2<sup>nd</sup>, 2021***

- The contractor at the Generals Bridge project will continue installing new rebar cages along the existing concrete wall at the MBTA tracks along the inbound lane of Thomas Burgin Parkway.
- At the McConville Way project the contractor will continue construction of the north and south streetscape aside the new roadway. The streetscape work includes the continued installation of trees within the planter curbs, install wooden benches, ornamental radius granite blocks, brick pavers, irrigation and waterproofing of sidewalks. At the future pocket parks, the contractor will continue installing park granite curbing, park pavers, park trees, granite blocks at future water feature, new sod, and mud slab. The contractor will continue to insert new fencing within the median of Granite St. At the beginning of this week, the sidewalk on the inbound lane of Granite St. will temporarily be closed while the contractor places the remaining ornamental radius granite retaining wall. The contractor will continue replacing the existing concrete sidewalk at the corner of the Hancock St and Cliveden St. There remains a temporary pedestrian detour adjacent to the work area between the temporary fencing and jersey barriers. Pedestrians should use caution when using the temporary ramp from the sidewalk to the walkway area. This detour will be in place for the next few weeks.
- The demolition of the 100 Parking Way building will continue this week. The contractor will be removing the remaining demolition material and continue backfilling the old building footprint. Temporary fencing remains in place around the building during construction. There remains no parking along McConville Way and Parkingway.

(The photo on the above left shows crew demolishing the remaining section of the 100 Parking way building the above right photos shows the placing of the new ornamental stone retaining wall adjacent to Granite St.)
